

# DOMESTIC VIOLENCE **INTERVENTION** AND **PREVENTION** PROGRAM

Domestic violence and sexual assault are pervasive, life-threatening crimes affecting millions of individuals across our nation, regardless of age, gender, economic status, race, religion, or education level.

One in four women and one in seven men will experience domestic violence in their lifetime. Through case advocacy, support groups, legal advocacy and emergency shelter, YWCA Greater Lafayette is on a mission to support and empower survivors of domestic violence.
